## A Permeable Paving Solution

Ecogranite Aquasett

Ecogranite AquafLOW

Ecogranite Aquaslab

With over 60% recycled content, Ecogranite is the sustainable solution for permeable block paving. This premium range of permeable block paving has a textured surface, exposing the sparkling granite while offering excellent skid and slip resistance. The paving blocks incorporate a slot and chamfer which helps to prevent localised flooding by allowing water to disperse at a high rate making them the ideal premium paver to complement the Aquaflow SuDS system.

**Ecogranite Aquasett** permeable blocks are specially designed, incorporating a slot and chamfer, to allow water to disperse at a high rate whilst retaining its visual integrity. Used within residential and commercial projects including driveways, access roads and car parks, Ecogranite Aquasett is available in a wide range of colours, offering an aesthetic appearance for all environments. Available in mixed packs or large block only. A kerb system is also available to complement the range. The textured surface exposes the sparkling granite offering excellent skid/slip resistance. The Ecogranite Aquasett permeable block can be specified for all sites designed under BS7533-Pt13.

Sizes: 250 x 150 x 60/80mm 150 x 150 60/80mm 100 x 150 x 60/80mm

**Ecogranite AquafLOW** permeable blocks are specially designed, incorporating a slot and chamfer, allowing water to disperse at a high rate. Available in 60mm and 80mm rectangular blocks, they sit effortlessly alongside our conventional Ecogranite Royal Forest paving. The textured surface exposes the sparkling granite offering excellent skid/slip resistance. The Ecogranite AquafLOW permeable block can be specified for all sites designed under BS7533-pt13.

Sizes: 200 x 100 x 60/80mm

**Ecogranite Aquaslab** is specially designed, incorporating a slot and chamfer, allowing water to disperse at a high rate helping prevent localised flooding. The striking bush hammered finish exposes sparkling granite, offering excellent skid/slip resistance, ideal for use on non-trafficked pedestrian areas. Ecogranite kerb system and edgings have been specially designed to complement the range. The Ecogranite Aquaslab can be specified for all sites designed under BS7533-Pt13.

Sizes: 450 x 300 x 60mm
