

Mirum

A Green Paving Solution

Mirum

A Green Paving Solution

Mirum is a 'green' concrete paver in the classic format 600 x 400 mm that has a modern aesthetic and feel. It has a relatively large surface area and is perfect if you are looking to create an environment that has a sleek-lined pattern, interspersed with grass.

Due to its rounded edges, the combination of the Mirum pavers and the greenery gives the space a natural and creative look to any urban surrounding.
