A Green Paving Solution

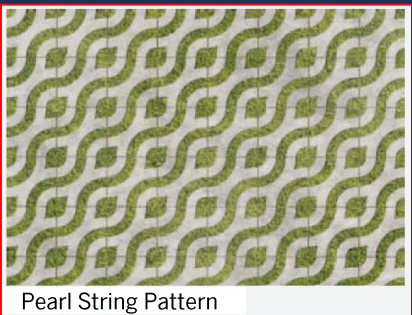

Virage

A Green Paving Solution

The modular set-up of Virage green pavers makes it possible to create several different patterns. The balance between concrete and grass or pebbles creates a symmetry of lines that gives every surface a unique and character and design. The harmonious shape of the pavers ensures that the patterns have a natural appearance and aesthetic. Available in a standard concrete texture in grey or coloured.

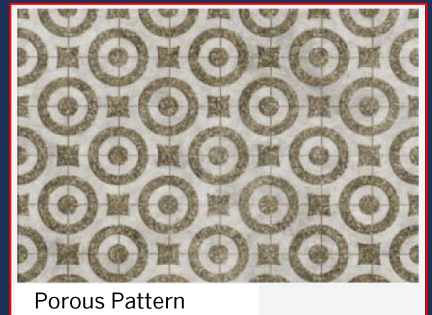

The unique design of the Virage green concrete paver makes it possible to create six unique patterns with only a single paver. The repetitiveness of the patterns does not detract from the natural character.

Pearl String Pattern

Shackle Pattern

Porous Pattern

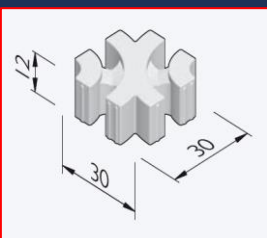

Geological Pattern

Isobar Pattern

Water Ripple Pattern

SPECIFICATIONS

Dimensions	30 x 30 x 12 cm
Weight	15.8 kg
Number per m ²	11 pieces
Growable surface	46%
Permeability (sand 0/2) *	460 l/sec/ha

* indicative values

Virage green paving is especially suited to pedestrian zones, residential access roads and parking bays with light vehicular traffic. The products are manufactured to BSEN 1338 / 1339 and meets the performance and technical requirements of those standards.
