

# ENVIRONMENTAL POLICY

Hardscape Products Ltd is committed to preventing pollution, promoting sustainable resource use, reducing Embodied Carbon or harmful Greenhouse Gas emissions, and to comply with all relevant environmental legislation, regulations, and other environmental requirements.

We will regularly evaluate the environmental impact of our activities, products and services and we will act to continually improve our environmental performance by maintaining an Integrated Management System that meets the requirements of both ISO 14001 and ISO 9001.

It is our policy to:

- a. Minimise the use of energy, water, and natural resources.
- b. Minimise waste through prevention, re-use, and recycling where possible.
- c. Dispose of waste safely and legally.
- d. Avoid the use of hazardous materials, where practical.
- e. Work with environmentally responsible suppliers.
- f. Prevent environmental damage and minimise nuisance factors such as noise and air pollution.

We will define environmental objectives, targets and improvement actions that are related to this policy and to our significant environmental aspects. We will regularly evaluate progress against these through our 'Management Review' process.

We are committed to providing relevant environmental training and promoting environmental awareness to employees and, where appropriate, to interested parties and external providers and to communicating our environmental performance.

We will maintain processes to prevent environmental nonconformities and to ensure that we are prepared to deal with potential environmental emergencies.

We have a comprehensive Environmental Arrangements document that accompanies this policy, which clarifies how we will monitor, mitigate, and react to environmental and sustainable aspects and impacts. This policy and the arrangements will be regularly reviewed and updated to take account of organisational priorities and changes, environmental legislation, and best practice.
