

EXTASI AIR

EXTASI AIR is a revised version of an urban element that was originally designed in pink moulded concrete, using a new material. With a triangular volume, rounded edges and weight, this Air collection backless bench has been designed for use indoors or in private outdoor areas, alternatively recreating the atmosphere of indoor comfort.

Polyethylene HDPE |  165 cm |  36 kg |  6

Add-ons: LED

 Update 03.07.2025

Arriola&Fiol, Arquitectes 2013

ORIGIN

Extasi apperars to fill the need for a lightweight wide and light backless bench that can be combined with the rest of Air Collection, as well as its concrete version.

RECYCLED AND RECYCLABLE

It is monomaterial and 100% recyclable. The option in black color is 100% recycled, and consequently it is an environmentally sustainable product.

NON-POROUS

The peculiarity of non-porous HDPE material means that its surface is easy to wash with pressurised water and a degreasing detergent that contains surfactants. It is disinfected with a hydro-alcoholic solution.

MATERIAL

Made with rotomolded HDPE polyethylene, it's available in a wide variety of colors. This material offers great strength and durability, however, it is possible that they may suffer slight deformations over time in cases of prolonged exposure to the sun, high temperatures or intensive use. These variations do not compromise the functionality of the product.

With a threaded inspection chamber cover permitting access to the interior.

INSTALLATION

Can be installed on the paving, and anchored, if required, using a hidden and removable system.

1.2 Installation system

Hoisting

(W=36 kg)

Installation

1. Indoor: free-standing
2. Outdoor: Hidden and Removable anchored: Screw the M6 screws into the bushing supplied. Place the bushing+screw kit in the existing holes in the bench. Screw in 3 M5 side fasteners until the M6 screw is tight. Rotate the bench, mark the position. Drill holes in pavement (Ø20), fill with resin or fat mortar and place the bench. Optionally, to gain weight, the customer can ballast it with sand.

- ① threaded inspection hatch
- ② service lead
- ③ screw M6
- ④ side fastener M5
- ⑤ threaded bushing pavement M6
